MEADOWROCK VINEYARD
ATLAS PEAK, NAPA VALLEY

This hillside vineyard sits on a rolling south-facing slope at one end of Soda Canyon on Atlas Peak. The 1500ft high elevation site yields tiny berries and a juicy, powerful wine with intense blackberry jam character and notes of dark chocolate, toasted marshmallow, jasmine and candied violets.

VINEYARD NOTES

- Atlas Peak AVA
- MeadowRock Vineyard
- Soil Type: Volcanic Rocky Loam
- Harvest Date: October 5, 2021
- Napa Green Winery

ATLAS PEAK AVA

- One of Napa Valley's highest elevation AVAs, ranging from 1400-2600' feet above sea level.
- The soils in Atlas Peak are predominantly volcanic, which are well-drained and relatively low in fertility. This type of soil stresses the vines, resulting in smaller grape clusters with intense flavors and high tannin levels.
- Due to its higher elevation, the area experiences more sunlight and less fog than the valley floor, leading to a longer growing season.

HARVEST NOTE

- The 2021 vintage will be remembered for low yields of intensely-aromatic, flavorful fruit, with a smooth and uneventful harvest season
- January and February saw rain, then almost no notable precipitation for flower, bloom and set
- Grapes ripened early and evenly during a summer with no heat spikes

VARIETAL COMPOSITION

100% Cabernet Sauvignon

ALCOHOL

14.8%

PH

3.65

TA

5.9 g/L

BARRELS PRODUCED

6
